

Oregon Wildfire Recovery

Recreation Site Status Map Toolkit

[last updated May 10, 2021]

Oregon's Natural and Cultural Resources Recovery Task Force released an interagency status map to help the public navigate the status of popular recreation areas impacted by the 2020 wildfire season. Here is a toolkit to use on your site to help amplify the message of safe recreation for all Oregonians while we work to repair our forests and recovery from the wildfires.

Toolkit:

1. [Oregon's Recreation Site Status Map](#)

- This map provides a centralized hub to help inform the public as they plan to take advantage of Oregon's many outdoor recreation opportunities.
- It can be embedded using the URL <https://geo.maps.arcgis.com/apps/dashboards/36d86b9550f54ef2957626e48a66c364>
- The map can also be embedded using the HTML code:

```
<iframe

```

2. [How to Use This Map](#)

- This PDF 'How to Use this Map' will help explain how the map works for visitors. This should be posted on the page with the map.

3. FAQs

- Please link to the FAQ page: <https://wildfire.oregon.gov/Pages/Recreation-Impacts.aspx>
The FAQ questions and answers are updated frequently and can be found near the bottom of the page.

4. Graphics

- These social media tiles can be utilized on various media channels. They are sized to be used as social media tiles. Special thanks to Travel Oregon for creating these media assets.
